内容简介

If any journalist can expose the U.N. with wit, style, and common sense, it ' s Eric Shawn. He ' s a pit bull with a pen! (Ann Coulter).

The United Nations is supposed to be a guardian of peace and goodwill. Instead, it has degenerated into a corrupt and cowardly organization. How did that happen? The U.N. Exposed will tell you It is the best investigative work on the U.N. in print. (Bill O ' Reilly).

Eric Shawn ' s explosive book breaks open the world of the diplomatic elite, shows what really goes on behind closed doors and reveals how the international bureaucrats on New York ' s East River are an even bigger problem than we ever imagined. (Sean Hannity).
