内容简介

Through encounters with sundry artists, musicians, students, bar owners, gangsters, prostitutes, and slackers, Mexico assembles a compelling portrait of China's contemporary youth culture and the limits of Communist control. The book's subjects include a twenty-seven-year-old self-taught disaster photographer from the coal country in Shenyang; a twenty-nine-year-old mobster in Qingdao; a twenty-two-year-old Hendrixian Uighur guitar player making a splash in Shanghai; a Beijing university student who wishes that the system encouraged less rote memorization and more original thought; and an investigative journalist who no longer publishes himself, instead leading Western reporters to controversial stories. Mexico, a musician and poet who was a student in Beijing and subsequently managed a night club, has assumed a pseudonym to avoid trouble with the Chinese authorities. While occasionally anxious about his youth and his lack of credentials, he is a good listener and knows how to tell a provocative and illuminating story.
