内容简介

One thousand years after the Jupiter mission to explore the mysterious Monolith had been destroyed, after Dave Bowman was transformed into the Star Child, Frank Poole drifted in space, frozen and forgotten, leaving the supercomputer HAL inoperable. But now Poole has returned to life, awakening in a world far different from the one he left behind--and just as the Monolith may be stirring once again . . .

作者简介

媒体评论

3001: The Final Odyssey has an eerie and compelling plausibility.

--Business Week

"A fascinating picture of our future: cities atop needlelike towers that extend into space, the colonization of Venus, the pacification of humanity, and the abolition of religion."

--Newsweek

"Science-fiction master Arthur C. Clarke has taken generations of readers to the far and lonely reaches of the universe."

--USA Today -- Review
