From Library Journal

This 19th-century classic, read by Andrew Sachs, is a tale of betrayal, gold, and love, encased in the elegant symmetrical structure so popular in traditional English fiction, featuring Marner, the weaver, who is framed for theft by his best friend and becomes a recluse, focusing his strong affections only on the store of golden coins he receives in payment for his work. As usual, Chivers has produced an excellent audio presentation of a literary masterpiece. Alas, in this day and age fewer and fewer readers not enrolled in literature classes actually read the works of what are frequently referred to as "dead white males" even if, as in this case, they were actually written by a woman. For this reason, this title is recommended for all academic but only larger public libraries.

内容简介

(Book Jacket Status: Jacketed) Introduction by Rosemary Ashton The isolated, misanthropic, miserly weaver Silas Marner is one of George Eliot's greatest creations, and his presence casts a strange, otherworldly glow over the moral dramas, both large and small, that take place in the pastoral landscape that surrounds him. When Marner is wrongly accused of crime and expelled from his community, he vows to turn his back upon the world. He moves to the village of Raveloe, where he remains an outsider and an object of suspicion until an extraordinary sequence of events, including the theft of his gold and the appearance of a tiny, golden-haired child in his cottage, transforms his life. Part beautifully realized rural portraiture and part fairy tale, the story of Marner's redemption and restoration to humanity has long been George Eliot's most beloved and widely read work.
