印刷时间：2005年09月01日

开本：16开

纸张：胶版纸

包装：平装

是否套装：否

国际标准书号ISBN：9780443072963

内容简介

This popular text uses double-page spreads to cover the majority of situations likely to be encountered in clinical practice. Each topic is introduced by a short case scenario, followed by a definition of the appropriate clinical examination, diagnostic procedures, treatment, and prognosis. Color line drawings, diagnostic algorithms, color clinical photographs, and summary boxes bring the content to life. The 2nd Edition offers up-to-date and expanded coverage of new imaging techniques, genetics, episcleritis, scleritis, and more.

目录

Basic Principles

- Anatomy and physiology : outer eye
- Anatomy and physiology : inner eye
- Relations and connections: orbit and visual pathways
- Human sight
- The ophthalmic history
- The ophthalmic examination
- Special investigations
- Ocular pathology
- Ocular pharmacology
- DISEASES
- Eyelids: blepharitis, dermatitis and lumps
- Eyelids: abnormalities of position
- Tear secretion and drainage
- Episcleritis and scleritis
- The orbit
- Conjunctiva: infective inflammation
- Conjunctiva
- non-infective inflammation
- Cornea: dystrophies and degenerations
- Glaucoma: primary open angle
- Glaucoma: angle closure and other types
- Iritis
- Posterior uveitis
- The lens
- Ocular fundus: diabetic retinopathy
- macular problems
- Ocular fundus: retinal vascular occlusions
- Ocular fundus: other retinal vascular disorders

Ocular fundus: macular degenerations
Ocular fundus: hereditary posterior segment disease
Ocular fundus: retinal detachment
Optic disc swelling and optic atrophy
Intraocular tumours
Strabismus: childhood
Strabismus: adult
Unequal and abnormal pupils
Trauma: eyelids, orbit and head
Trauma: the eyeball
Neonatal conjunctivitis

SPECIAL TOPICS IN OPHTHALMOLOGY

Correcting refractive errors
HIV and the eye
Tropical ophthalmology
Epidemiology and the functional implications of visual handicap
Ophthalmic surgery
Lasers in ophthalmology

CLINICAL DECISION-MAKING

Gradual visual loss
Sudden visual loss
The acute red eye
Trauma
The squinting child
Spots before eyes
Irritable eyes
Double vision
Eye database(UK perspective)
Index
