内容简介

A new, wide-ranging selection of Ralph Waldo Emerson ' s most influential writings, this edition captures the essence of American Transcendentalism and illustrates the breadth of one of America ' s greatest philosophers and poets.

The writings featured here show Emerson as a protester against social conformity, a lover of nature, an activist for the rights of women and slaves, and a poet of great sensitivity. As explored in this volume, Emersonian thought is a unique blend of belief in individual freedom and in humility before the power of nature. “ I become a transparent eyeball, ” Emerson wrote in *Nature*, “ I am nothing; I see all; the currents of the Universal Being circulate through me; I am part or particle of God. ” Written over a century ago, this passage is a striking example of the passion and originality of Emerson ' s ideas, which continue to serve as a spiritual center and an ideological base for modern thought.
