内容简介

According?to?traditional?Chinese?medicine?(TCM),?many?channels?andcollaterals?run?downward?from?the?organs?and?tissues?of?the?human?body?into corresponding?areas?on?the?feet?and,?therefore,?stimulating?these?areas?canhelp?regulate?the?functioning?of?these?organs?and?tissues?and?cure?diseases.

Contemporary?research?in?human?anatomy?has?revealed?that?the?feet?have?moreblood?vessels?and?nerves?than?any?other?part?of?the?human?body?and?that?thenumerous?nerve?endings?at?the?feet?have?a?special?relationship?with?the?head,hands?and?several?tissues?and?organs?of?the?body.?Thanks?to?this?relationship,foot?massage?has?emerged?as?a?miraculous?curative?and?health-preserving therapy.

Today,?it?is?an?accepted?fact?that?regular?foot?massage?not?only?improves?the?functioning?of?all ?organs?and?the?flow?of?qi?in?channels?and?collaterals,?and?invigorates?blood?circulation,?but?also?cures?diseases?and?helps?to?preserve?health?and?life.
