内容简介

HarperCollins is proud to present its new range of best-loved, essential classics. 'It's a poor sort of memory that only works backward.' In Carroll's sequel to *Alice's Adventures in Wonderland*, Alice once again finds herself in a bizarre and nonsensical place when she passes through a mirror and enters a looking-glass world where nothing is quite as it seems. From her guest appearance as a pawn in a chess match to her meeting with Humpty Dumpty, *Through the Looking Glass* follows Alice on her curious adventure and shows Carroll's great skill at creating an imaginary world full of the fantastical and extraordinary.
