张延飞博士的著作《级差含义的语用—符号研究》是基于他的博士论文撰写而成的。本书用索绪尔的系统思想解释级差含义问题，认为级差含义是建立在听者的常规推理基础上的无意识、自动的推理。本书由七部分组成：简介、当前有关级差含义的问题和争论、有关级差含义阐释模型的争议、级差含义是一种以系统为基础的意义、级差含义和系统-符号关系、级差含义和符号-符号关系、级差含义和常规语言系统、结论。

目录

Chapter One Introduction

1.1 Preliminary remarks

1.2 Defining scalar implicature

1.3 Imperfections of Grice's theory on scalar implicature

1.3.1 Grice's theory of conversational implicature

1.3.2 Limitations of Grice's theory of conversational implicature

1.4 Major concerns of the present study

Chapter Two Scalar implicature: Its current issues and debates

2.1 Approaches to scalar implicature in post-Gricean theories

2.1.1 Scalar implicature in neo-Gricean theories

2.1.2 Scalar implicature in relevance theory

2.1.3 Scalar implicature in other post-Gricean accounts

2.2 Scalar implicature: Its controversies in interpretation models

2.3 Questioning the previous study on scalar implicature

Limitations of Grice's theory of conversational implicature 1.4 Major concerns of the present

studyChapter Two Scalar implicature: Its current issues and debates 2.1 Approaches to

scalar implicature in post-Gricean theories 2.1.1 Scalar implicature in neo-Gricean theories

2.1.2 Scalar implicature in relevance theory 2.1.3 Scalar implicature in other post-

Gricean accounts 2.2 Scalar implicature: Its controversies in interpretation models 2.3

Questioning the previous study on scalar implicature 2.3.1 The defining problems of scalar

sets 2.3.2 The defining problems of the attributes of scalar implicature 2.3.3 The

problems of the previous models 2.4 The feasibility of interpreting scalar implicature as the

system-based default meaningChapter Three Scalar implicature as the system-based meaning

3.1 Introduction 3.2 Saussure's thought of language as a system 3.2.1 The schema-

instance relationship among the system, terms and signs 3.2.2 Two basic relationships in

Saussure's thought of language as a system 3.2.3 Language as a conventional system in

Saussure's linguistics 3.3 Summary Chapter Four Scalar implicature and the system-sign

relationship 4.1 Horn scales and their problems 4.1.1 The deficiency of Horn scales
4.1.2 Revising Horn scales 4.1.3 Problems with previous formations of scalar sets 4.2
Differentiation of notions: scale, set, linguistic expression, word and term 4.3 Defining sets via
associative relations 4.4 Types of associative sets 4.5 Further reflections on associative sets
4.6 Summary Chapter Five Scalar implicature and the sign-sign relationship 5.1
Introduction 5.2 The associative set as a system of semantic relations 5.3 Associative
implicature defined via associative sets 5.4 Summary Chapter Six Scalar implicature and the
conventional system of language 6.1 Introduction 6.2 Scalar implicature as the system-
based meaning 6.3 Scalar implicature defaulted by the language system 6.3.1
Defaultness in Saussure's linguistics 6.3.2 Common characteristics of defaults and
conventions 6.3.3 The role of conventions in the default interpretation of scalar implicature
6.4 Convention-based reasoning The inferential mechanism of scalar implicature 6.4.1
The said versus the inferred 6.4.2 Defining reasoning 6.4.3 The hard way and the
quick way of reasoning 6.4.4 The inference of scalar implicature as the convention-based
reasoning process 6.5 Summary Chapter Seven Conclusion 7.1 Introduction 7.2
Major ideas of the present study 7.3 Contributions of the present study 7.4 Limitations
and suggestions for the further researchBibliographyAcknowledgements
