内容简介

For nearly three decades, *Building Construction Illustrated* has offered an outstanding introduction to the principles of building construction. This new edition of the revered classic remains as relevant as ever—providing the latest information in Francis D.K. Ching's signature style. Its rich and comprehensive approach clearly presents all of the basic concepts underlying building construction and equips readers with useful guidelines for approaching virtually any new materials or techniques they may encounter.

Laying out the material and structural choices available, it provides a full understanding of how these choices affect a building's form and dimensions. Complete with more than 1,000 illustrations, the book moves through each of the key stages of the design process, from site selection to building components, mechanical systems, and finishes.

Illustrated throughout with clear and accurate drawings that present the state of the art in construction processes and materials;

Updated and revised to include the latest knowledge on sustainability, incorporation of building systems, and use of new materials;

作者简介

Francis D.K. Ching is the bestselling author of numerous books on architecture and design, including *Architecture: Form, Space, and Order*, *A Global History of Architecture*, *Architectural Graphics*, *A Visual Dictionary of Architecture*, and *Interior Design Illustrated*, all published by Wiley. His works have been translated into over sixteen languages and are regarded as classics for their renowned graphic presentation. He is a registered architect and Professor Emeritus at the University of Washington in Seattle.
