## 内容简介

Praise for INTERMARKET ANALYSIS "John Murphy has done it again. He dissects the global relationships between equities, bonds, currencies, and commodities like no one else can, and lays out an irrefutable case for intermarket analysis in plain English. This book is a must-read for all serious traders." -Louis B. Mendelsohn, creator of VantagePoint Intermarket Analysis software

"John Murphy's Intermarket Analysis should be on the desk of every trader and investor if they want to be positioned in the right markets at the right time." -Thom Hartle, President, Market Analytics, Inc. ([www.thomhartle.com](http://www.thomhartle.com))

"This book is full of valuable information. As a daily practitioner of intermarket analysis, I thought I knew most aspects of this invaluable subject, but this book gave me several new ideas. I thoroughly recommend it for beginners and professionals." -Martin Pring, President of Pring.com and editor of the Intermarket Review Newsletter

## 作者简介

JOHN J. MURPHY, former technical analyst for CNBC, is the Chief Technical Analyst for StockCharts.com and President of MurphyMorris ETF Fund. He has over thirty years of market experience and is author of several bestselling books, including Technical Analysis of the Financial Markets-which is widely regarded as the standard reference in the field. His book Intermarket Technical Analysis (Wiley) created a new branch of technical analysis emphasizing market linkages. Stocks & Commodities Magazine (October 2002) described his intermarket work as "unparalleled." His third book, The Visual Investor, also published by Wiley, applies charting principles to sector analysis. John has appeared on Bloomberg TV, CNN Moneyline, Nightly Business Report, and Wall Street Week with Louis Rukeyser, and has been quoted in Barron's and other prominent financial publications. He received a BA in economics and an MBA from Fordham University in New York. In 1992, John was given the first award for outstanding contributions to global technical analysis by the International Federation of Technical Analysts, and is the recipient of the 2002 Market Technicians Association Annual Award.
