作者简介

More people get into business school with a Kaplan GMAT course than any other major test prep company. This is because we provide three advantages no one else can match: The most personalized prep with more course options and any competitor -- including in-class, online, one-on-one, and self-study -- because one size does not fit all; the most focused prep with Smart Reports, our exclusive online score analysis and personalized recommendation system; and the most effective prep, which is why we guarantee your score will improve.
