## 内容简介

The experience of war has affected every generation in the twentieth and twenty-first centuries, and every soldier has a story to tell. Since the year 2000, the Veteran's History Project, a new permanent department of the Library of Congress, has been collecting and preserving the memories of veterans. In addition to more than 50,000 recorded oral histories, the Veteran's History Project has amassed thousands of letters, photographs, scrapbooks, and invaluable mementos from nearly a century of warfare.

In the first book to showcase the richness and depth of this collection, *Voices of War* tells a compelling, emotional, history of the experience of war, weaving together veterans' stories from in World Wars I and II, Korea, Vietnam, and the Persian Gulf. The stories are organized thematically into sections—from signing up to coming home, generations of veterans recall individual experiences that together tell the extraordinary story of America at war. Letters, photographs, sketches and paintings enrich the compelling oral history.
