## 编辑推荐

### From the Back Cover

Although this play is a romantic comedy, as the story of a young merchant who cannot repay a debt to vindictive money lender, it has a very dark obstacle in the character of Shylock, one of the most vivid and memorable characters in Shakespeare's works.

The CliffsComplete The Merchant of Venice is a revised and expanded study edition. It contains Shakespeare's original play, a glossary, and expert commentary in a unique, 2-column format. To enhance your learning, notes and definitions appear directly opposite the line in which they occur, and a review section follows the play. This edition also introduces you to the life, works, and times of William Shakespeare. --This text refers to an alternate Paperback edition.

## 内容简介

If there ever has been a groundbreaking edition that likewise returns the reader to the original Shakespeare text, it will be the Applause Folio Texts. If there has ever been an accessible version of the Folio, it is this edition, set for the first time in modern fonts. The Folio is the source of all other editions. The Folio text forces us to re-examine the assumptions and prejudices which have encumbered over four hundred years of scholarship and performance. Notes refer the reader to subsequent editorial interventions, and offer the reader a multiplicity of interpretations. Notes also advise the reader on variations between Folios and Quartos. The heavy mascara of four centuries of Shakespearean glossing has by now glossed over the original countenance of Shakespeare's work. Never has there been a Folio available in modern reading fonts. While other complete Folio editions continue to trade simply on the facsimile appearance of the Elizabethan "look," none of them is easily and practically utilized in general Shakespeare studies or performances. --This text refers to the Paperback edition.
