内容简介

Bible Code II: The Countdown starts with 9/11 and counts down to Armageddon. For 3000 years a code in the Bible remained hidden. Now it has been unlocked by computer, and it reveals events that happened thousands of years after the Bible was written. Often world-shaking events are predicted in advance -- and then happen exactly as foretold. Do we really have only years to survive? Or can the Bible code help save our world? Can we use it to change our future? This is the thrilling sequel to the #1 bestseller that shook the world.
