内容简介

Stylists are some of the most influential people working within the fashion industry, responsible for the final shape of many exciting works in popular culture. Still unsung heroes, they are now becoming increasingly more well known in their own right, alongside the photographers, art directors, and magazine editors of the industry. Featuring stunning imagery and entertaining interviews with some of the biggest names in the field, including Lady Gaga's stylist Nicola Formichetti, Marc Jacobs collaborator Katie Grand, and Melanie Ward of Harper's Bazaar, this is an essential book for any aspiring stylist or fashion student.
