## 内容简介

Michael R. Katz presents Turgenev ' s greatest and ultimately most important novel in an acclaimed new translation of *Fathers and Sons*.

Katz ' s translation captures a world on the brink of change, subtle psychological confrontations among powerful fictional characters, and the gracefulness of Turgenev ' s poetic imagination. This new version of *Fathers and Sons* will be welcomed by general readers and scholars alike.

The novel is accompanied by a rich selection of Turgenev ' s letters, illustrating his involvement in the critical storm that surrounded *Fathers and Sons* upon its publication in 1862.

Four of the most significant critiques of the day further enhance the reader ' s understanding of this public controversy.

Sixteen critical essays are organized around several themes: the issue of translation; politics, including Turgenev ' s liberalism, view of revolution, and attitude toward nihilism; and various literary aspects, including Turgenev ' s use of imagery, the role of women, the conflict of generations, and the impact of science.

A Chronology and Selected Bibliography are included.
