内容简介

"If you trade currency, then you need to have this book on your desk. It's the only book you need for technical analysis of the fastest-moving market on the planet."

"In plain English, Schlossberg lays out the basics in using technical analysis to trade foreign currencies, from the fundamentals of how the FX market works to the variety of technical strategies and trade management techniques traders can employ. Along the way, he offers entertaining examples and observations as well as simple, easy-to-read charts and diagrams. Anyone interested in getting started in the hugely popular FX market would do well to begin with this book."

"Boris Schlossberg has done a fabulous job with this book. It's packed with insightful tips and strategies that are sure to save traders a lot of time and money."

"Schlossberg's book is a great resource for traders just starting out in currency markets. His focus on simplicity is critical for a new trader's education on how to make money."

作者简介

BORIS SCHLOSSBERG serves as Senior Currency Strategist with Forex Capital Markets in New York, one of the largest retail forex market makers in the world. He is a frequent contributor to SFO magazine, cowriter for the FX section of Investopedia.com, and c
