内容简介

On the morning of September 11, 2001, nearly 700 of Cantor Fitzgerald's 1,000 New York employees were at their desks on the top floors of One World Trade Center when a hijacked passenger plane struck eight floors below. None survived.

On Top of the World tells the story not only of that tragic day but also of the complicated and emotionally charged events that followed. It is an intimate, often harrowing look at how private families processed a public atrocity, how corporate war-room strategy sessions saved the company from liquidation and the efforts of opportunistic competitors.
