内容简介

Phaedra is consumed with passion for Hippolytus, her stepson. Believing her husband dead, she confesses her love to him and is rebuffed. When her husband returns alive, Phaedra convinces him that it was Hippolytus who attempted to seduce her. In his interpretation, Racine replaced the stylized tragedy with human-scale characters and actions. Introduction by Richard Wilbur.

作者简介

RICHARD WILBUR, one of Americas most beloved poets, has served as poet laureate of the United States. He has received the National Book Award, two Pulitzer Prizes, and a number of translation prizes, including two Bollingen Prizes and two PEN Awards. He lives in Cummington, Massachusetts.
