## 内容简介

A clairvoyant when it comes to the Starbucks orders of strangers, a renegade when it comes to bureaucracy, Zeke asks almost everybody he meets, "Why are you so unhappy?" The answers he receives--a mix of true sadness and absurd complaint--become the core of an obsessive project, "The Inventory of American Unhappiness," a project that becomes all the more personally meaningful as he follows steps outlined in a women's magazine on finding the perfect mate. Incisively tapping the voice of one of the most charming, and deluded, narrators to come along in years, Bakopoulos captures our zeitgeist with lacerating wit and a big heart--confirming Jonathan Miles's (author of "Dear American Airlines") claim that "there's no such thing as unhappiness when you're holding a Dean Bakopoulos novel."
