作者简介： Henry James (1843-1916) , American novelist, play-wright, essayist and critic, James remains one of the most influential of the literary figures who were writing at the turn of the century. The Aspern papers (1888) is a fine example of what James termed a tale-too short for a novel and too long for a short story. In creating a world from a single incident and weaving his plot around it, he reveals his unique mastery of the genre.
